Paul D. Buczynski is the Staff Director of the Radar and Electronic Warfare Systems Laboratory at the Naval Postgraduate School located in Monterey California. Paul has over 25 years experience in the area of radar and electronic warfare technologies. Paul teaches both engineering and non-engineering students in the principles and theory of radar and electronic/information warfare in a

laboratory setting and in support of research also conducted in the laboratory. Paul is also responsible to operate and maintain all systems within the laboratory. Paul also serves as NPS Radar/EW Systems Laboratory representative to the Center for Interdisciplinary Remotely-Piloted Aircraft Studies (CIRPAS) located at the Marina Airport, Marina California and is the Laboratory Director of the Center for Joint Services Electronic Warfare (CJSEW). Paul has supported various research programs including Conversion of U.S Army Radar System to a Mobile Weather Radar System- MWR-05XP, IR Countermeasures, High Power Microwave and Ultra Wide Band Technology. Paul has co-authored numerous conference papers and technical reports.
